EccentricK BD
Innovation Meets Service

A gift for the

“Department of Chemical Engineering, BUET”

the place of bond, love

and respect... ..

About Us

"We are a group of students from various universities(mainly BUET). We are working to develop Bangladesh's very own mobile app industry. All of our projects are sustainable, creative innovation and serviceable. Mainly we're focusing on very general people and giving them what they need through our platforms 'For Free'."

EccentricK BD

Innovation Meets Service

"EccentricK BD is one of the top 50 winner (11th in Idea Stage) from Connecting Startups Bangladesh and for that is a part of the first ever IT Incubator Center of Bangladesh."

Statement of the Problems and Needs

- The system of announcing the class test marks are not updated and digitalized like other departments(CSE).
- Students feel annoyance to collect the soft copies of various books, slides and previous year questions.
- An application for smartphome(android) could be a unique thing of this department and can develop the communication system between the teachers and students.

Executive Summary

This is a proposal for acquiring official permission from the department to develop the ‘ChEBUET’ mobile app. I am co-founder and team leader of “EccentricK BD”. As a student of this department I really wanted to do something for his department and I noticed the problems and needs mentioned before. That's why I’m proposing ‘ChEBUET’ app from my team “EccentricK BD” as a gift to my department.

Contents in App

- Introduction of the department.
- Faculty and Staffs → Faculty
 → Staff
- Research and Publications
- Students Corner → Library
 → Question Bank
 → Batch → Info
 → Files
- Notice Board → Updates
 → News
- Competition
- Accounts
- Academics
- Associations
- Testing and Consultation
- M A Naser Chair
- Contacts
- About Us

Features in Details

Accounts : There will be two types of access.

1. Teachers- All of the faculty members would be able to access and update the “notice board” section with changed schedules, class test, etc.

1. Students- Each student will be provided with an account to access the “Batch” section including files like class notes, slides and sheets (downloading, uploading and sharing) and also would get the access to his/her batch’s info and contacts. Initially there would be batch accounts provided to access all these.

***** This app will be updated after every term.**

Costs in Detail

As this app will be a gift from “EccentricK BD”, so We won’t charge anything for the designing and development.

We would need help from the department in collectng the contents.

We suggest not to use the server provided by BUET as it is much slow and weak often.

A reasonable hosting would cost about **4\$** per month which would be about **313BDT**(according to today’s currency) per month. This hosting would also help us to develop this app furtherly and make sure a specific account for each student of this department.

THANK YOU

For any query please feel free to contact,

Md. Ashikur Rahman Rupok
